HOW WE WORK

At Dr. Amiri's Beauty Clinic, we believe your environment should reflect your inner radiance—not just how you look, but how you want to feel. Our design process is grounded in thoughtful planning, timeless aesthetics, and respect for your unique identity. From the initial consultation to the final detail of our space, we focus on bringing harmony, purpose, and personality to every moment of your experience.

CREATIVE PROCESS

Discovery + consultation

We start by getting to know you—your needs, style preferences, lifestyle, and budget. This stage sets the foundation for everything to come.

Concept development

Our team develops a design direction, moodboards, and layout options. We collaborate closely with you to refine the vision until it feels just right.

Execution + styling

We manage timelines and installations, so you don't have to. From paint to pillows, we oversee the transformation and ensure the final reveal is seamless and stunning.

MODERN RECEPTION

This modern reception features a grounded and earthy approach to contemporary design. By pairing natural textures with clean lines, the space creates a calm, airy atmosphere full of warmth and flow.

WAITING AREA

A natural approach to contemporary living. This style pairs natural textures with clean lines to create calm, airy spaces full of warmth and flow.

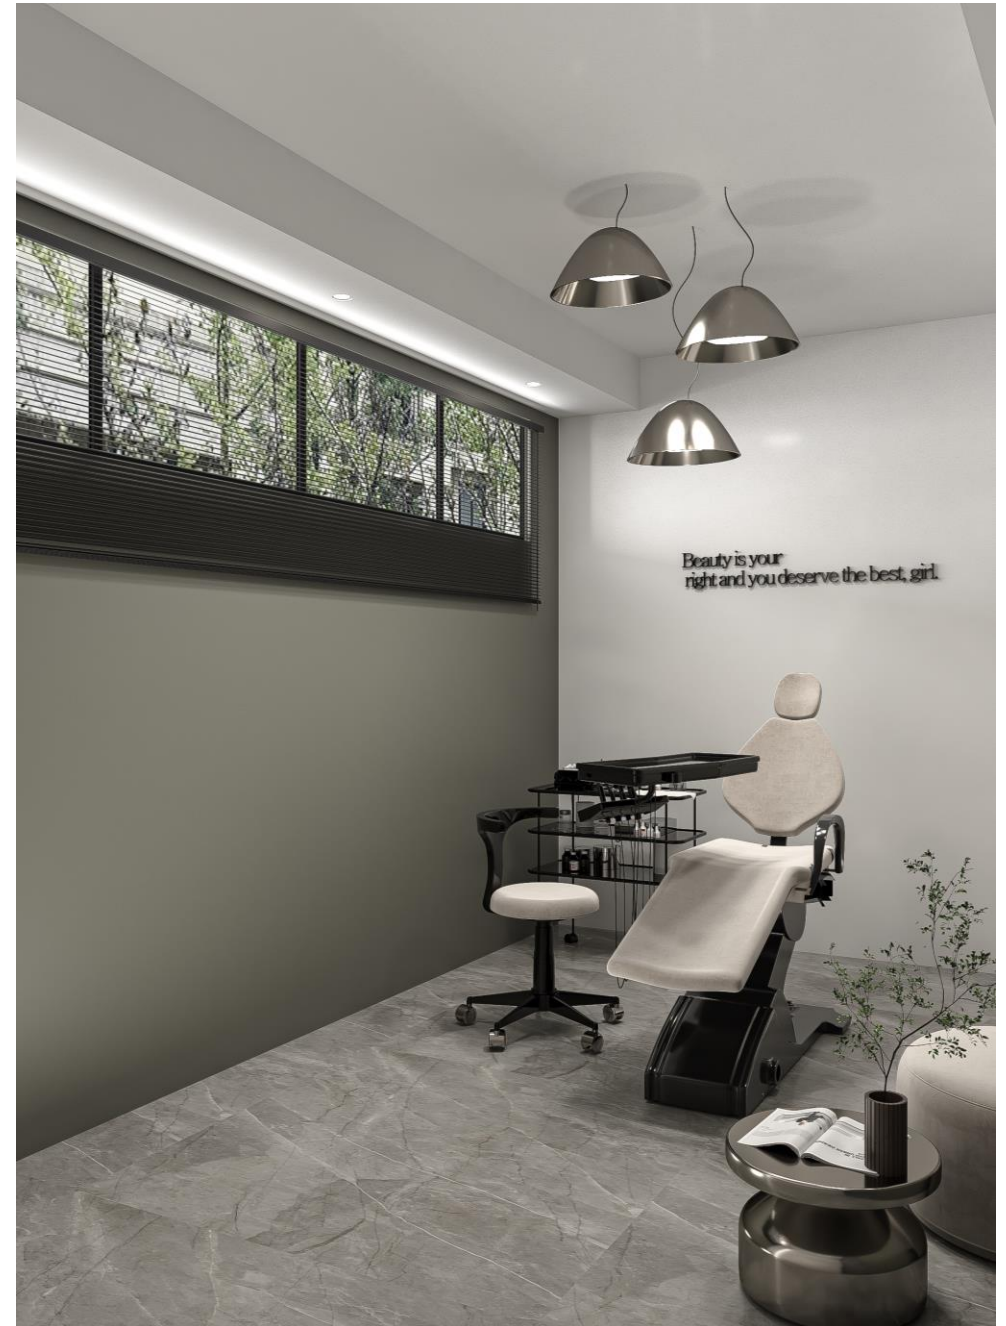

FACIAL ROOM

Facial Room Comfortable and inviting, this design embraces a modern aesthetic. It's all about soft textures, neutral palettes, and contemporary elegance to provide a relaxing experience.

LASER ROOM

DOCTOR'S ROOM

Doctor's Room This modern space features a clean, professional design that prioritizes both functionality and comfort. With its seamless integration of natural textures and contemporary lighting, it creates an atmosphere of trust and clinical excellence.

LET'S WORK TOGETHER TO BUILD YOUR DREAM SPACE

Let's collaborate to bring your vision to life—with
beauty, balance, and intention.
